

## Photo Covers for the Kingston Flush Mount Album

Photo covers are an attractive upgrade to the Kingston Flush Mount Album. The photo covers are laminated at no extra cost. Send us your image for your cover using the following dimensions or upload your file to us through our website. See website for guidelines. Call us if you do not see your desired size online.

1. Add 1/4 inch to the height of your photograph.
2. Subtract 1 and 3/4 inches from the width of your photograph.
3. Item #1 and #2 is the actual part of your image that will show on the cover of the Kingston Album.
4. Your overall print needs 1 inch added on top, 1 inch added on bottom and 2 inches added on the right side - this is the part of the photo that rolls over the top, bottom and right side of the album cover.
5. Your image will be left justified.

## Photo Etched Metal Covers for the Kingston Flush Mount Album

Photo etched metal covers will set you apart from the competition. Send us your **300 DPI** or better **tif file** in **gray scale** following steps 1-4 above.

Please note: **ALL files MUST be in Grayscale, 300 dpi or better and in .tif format or you will be charged a conversion fee of \$30.**

To determine image size, subtract 1.5 inches from the width and add 0.625 to the height.

example: 10 x 10 = 8.5 x 10.625  
12 x 12 = 10.5 x 12.625  
11 x 14 = 9.5 x 14.625

## Full Canvas Wrap Cover

Send us your **FILE** for your cover using the following dimensions or upload your file to us through our website. See website guidelines. Call us if you do not see your desired size online. File size is 300 dpi or better.

1. Add 2 inches to the height of photograph size in the album.
2. Double the size of the width of the photograph size in the album and add another 5 inches to the width.

example: 10 x 10 = 25 x 12  
12 x 12 = 29 x 14  
11 x 14 = 27 x 16

To include text on the spine of album place the text vertically in the center of the photo. The text must be 2 inches shorter in height than the height of the photograph size in the album.
